### Ed Hands

*Sharing Stories of Blue Fire and the Backs of Angels*

Did you know that...

--A flood of "blue fire" flows through one of the stained glass windows of the incomparable Unity Church in late winter afternoons?

--Or that the unseen backs of the twenty altar angels are as exquisitely carved, in a glorious testimony to the sculptor's fierce commitment to detail?

--Or the lovely wife of Bartholdi, creator of the Statue of Liberty, maintains her serene beauty through eternity, as a figure in the etched glass windows of the Church?

If God is in the details, historian and storyteller Ed Hands was perfectly chosen to reveal those details to the fifty people privileged enough to have attended the last tour on "Great Buildings of Easton".

The Library gives heartfelt thanks to Ed for the four utterly compelling tours he so graciously hosted over this summer.

### Why Are There So Many...

*FISH at the Ames Free Library?*

Our collection of fish toys and their other playmates from the sea, remind us to practice the FISH! philosophy - four simple tools that help us build strong relationships with the team members we work with and you, the community we serve.

What is the FISH! Philosophy?

#### **Be There**

Being emotionally present for people is a powerful message of respect that improves communication and strengthens relationships.

#### **Play**

Bringing the spirit of play to work taps into a natural way of being creative and enthusiastic, while having fun. Play is the spirit that drives the curious mind.

#### **Make Their Day**

By finding simple ways to serve or delight people in a meaningful, memorable way, we can help contribute to someone else's life.

#### **Choose Your Attitude**

Thursday with sign-up required at the Main Library on 15 Barrows Street.

These free one-on-one computer tutoring sessions are of thirty minutes each on the subject of your choice ranging from computer basics to Word and Excel tips and tricks. No experience necessary, but appointments must be made in advance.

### Computer "Tid - Byte"

*Useful Tips for Your PC*

**Hold down the Alt key and continue to hit the Tab key on your keyboard until you arrive at the application you want to open.**

By taking responsibility for how we respond to what life throws at us, we become aware that our choices impact everyone around us.
